

500kW Avtron Loadbank

Model: 3040 LTR

The Avtron Model 3040LTR are resistive, AC load banks designed for moveable installations when up to 500kW of electrical load is required. The load bank is mounted on 4x industrial grade swivel castors. An emergency stop/disconnect switch gives full isolation of the fan and control supply.

Loadbank Data

NOMINAL CAPACITY	500kW	FAN MOTOR	2.55kW, 3 Phase, DOL, 50Hz
VOLTAGE RATING	400V-50Hz	AIR FLOW	4 m ³ /s (8,475 CFM)
LENGTH	1420mm	TYPICAL NOISE LEVEL	75dBA @50Hz at 3 Metres
WIDTH	1050mm	AUX SUPPLY	16A 3ph + PE plug & socket
HEIGHT	1749mm	POWER TERMINALS	Single Pole Power Connectors
WEIGHT	540kg	CONTROLLER	Sigma LT
LIFTING	4 Point Lift & Forklift	* 5kW Standard Load Step Resolution 1kW with Sigma LT Controller
